Summer/Fall 2010

# The Building Buzz

It's been a busy summer in the Legendary factory and with fall just around the corner, I wanted to give you an update on the diverse range of projects the team has delivered this season including:

A 24' x 24' Timber Frame gazebo in Killamey, ON - Log benches created for a local elementary school - 30' x 12' Timber trusses for a local Home Hardware store - 1,560 sq. ft. Scandi log home in New York State - 2,015 sq. ft. Hybrid in Virginia - 3,614 sq. ft. Dovetail log home in the Blue Mountains, ON.

Rather than writing about each project in detail (though we would love to and we're more than happy to answer any questions you may have about our projects), I thought I would share a few photos of our work - after all, a picture is worth a thousand words!

Milan Smeh

## Upcoming Events

Kleinburg, ON, NOV10

Two Hybrid Cottages, Kawartha  
Lakes, ON, NOV10

## Q & A

Do you only supply the materials  
in your home packages?

We include **BOTH** the supply and installation of the materials for your log or hybrid home package. The crew we send to your build site are involved in crafting your home meaning they can quickly reassemble your home, on-site, typically in just 2-3 days.

Log • Hybrid • Post & Beam • Roof Panels • Timber Accents • Furniture

2,015 Sq. Ft. Hybrid - Newcastle, VA

24' x 24' Gazebo - Killamey, ON

1,560 Sq. Ft. Scandi - Bolton Landing, NY

30' x 12' Timber Truss - Wasaga Beach, ON
